

KONSTANTINOS TZEIRANIDIS

Structural Engineer | MSc Structural Analysis & Earthquake Engineering

+357 96 515945 | konstantinos.tzeir@gmail.com | Nicosia, Cyprus | kt-website.onrender.com

PROFILE

Structural engineer with four years of professional experience designing and supervising low- to high-rise residential and commercial buildings in Cyprus, complemented by an MSc focused on earthquake engineering and structural dynamics. Combines hands-on design practice with academic research and university teaching in structural analysis, foundation engineering, and seismic design. Proficient across a wide range of analysis and design software, with programming experience in MATLAB, Python, C++, and Java.

WORK EXPERIENCE

Structural Engineer - A.F. Modinos & S.A. Vrahimis

Jan. 2025 – Present

- Design, analysis, and site supervision of mid- to high-rise residential and commercial buildings.
- Coordinate with architects and contractors to deliver structural solutions compliant with the Eurocodes.

Structural Engineer - P.ENG. Services

May 2022 – Dec. 2024

- Carried out structural analysis, design, and construction supervision of low- to mid-rise residential buildings.
- Managed projects end-to-end from preliminary design through construction completion.

EDUCATION

MSc in Civil Engineering - Structural Analysis & Earthquake Engineering

University of Cyprus

BSc in Civil and Environmental Engineering

University of Cyprus

- Thesis — Capstone Design Project: applied Eurocode-based design and construction-level decision-making to compare final cost and structural behavior across alternative structural configurations.

TEACHING EXPERIENCE

Teaching Assistant — Department of Civil and Environmental Engineering

University of Cyprus

- CEE 325 - Computer-Aided Structural Analysis (Jan.-May 2026)
- CEE 400 - Earthquake Engineering (Sept.-Dec. 2025; Sept.-Dec. 2026)
- CEE 233 - Construction Materials Laboratory (Jan.-May 2025)
- CEE 353 - Foundation Engineering (Jan.-May 2024; Jan.-May 2025)
- CEE 221 - Matrix Structural Analysis (Jan.-May 2024)
- CEE 220 - Structural Analysis II (Sept.-Dec. 2023; Sept.-Dec. 2024; Sept.-Dec. 2026)

PUBLICATIONS

Tzeiranidis, K. and Mavros, M. (2026). *A Counter-Snapping Stiffness Modulator for Passive Resonance Avoidance in Seismically Excited Structures*. European Conference on Earthquake Engineering (ECEE) 2026. Presented at the conference in Berlin, Germany (September 2026).

ACADEMIC DISTINCTIONS

- EAEE Young Researchers Award, European Conference on Earthquake Engineering (ECEE) 2026, Berlin, Germany
- First Place, Thesis Competition - Capstone Design Project, University of Cyprus (2021–2022)
- Most Economical Construction Award, “Building the Future” Student Competition (2021–2022)

SKILLS

Structural Software: ETABS, SAP2000, GT STRUDL, 3DR STRAD, TOA-PAΦ, Fespa, Tekton, Framework, LS-PrePost, FEMultiPhys

Design & Productivity: AutoCAD, Microsoft Office (Word, Excel, PowerPoint), Microsoft Project

Programming: MATLAB, Python, C++, Java

Languages: Greek (Native), English (IELTS 8.5 Overall)
